TeleMental Health Care

VA TeleMental Health Care offers Veterans a variety of mental health services, such as psychotherapy and psychiatric medication management, using secure video teleconferencing.

It allows Veterans already enrolled in care at the VA to conveniently meet with a mental health provider through their own personal device, such as a smartphone, tablet, or computer, or using video equipment at a partner clinic located closer to their home or workplace.

More Questions?

Ask with your VA mental health or primary care provider for more information. You can also contact the South Texas VA TeleMental Health Program Coordinator:

There are two main ways to use VA TeleMental Health Services:

**VA Video Connect**
- Uses a computer, tablet, or smartphone from anywhere with sufficient internet or cellular data connection.
- iOS devices (iPhone, iPad) use free app; Android or other devices use a website.
- If your provider agrees that VA Video Connect is appropriate, they will work with you to set up a test call and appointment time.
- For more information and to test whether your equipment might work, visit [www.mobile.va.gov/app/va-video-connect](http://www.mobile.va.gov/app/va-video-connect)

**TeleHealth Through Clinics**
- The appointment is scheduled at a clinic with TeleHealth equipment where the Veteran is seen by a VA provider or specialist located elsewhere.
- Available at the Audie L. Murphy VA Hospital, many VA outpatient clinics, and non-VA partner clinics in these other, mostly rural areas:
  - Crystal City
  - Del Rio
  - Eagle Pass
  - Floresville
  - Jourdanton
  - Junction
  - Kenedy
  - New Braunfels
  - Pearsall
  - San Marcos
  - Victoria

**Eligibility**
Veterans must be enrolled in health care through the South Texas Veterans Health Care System (210-949-3981) and receive approval from their providers to use TeleMental Health services.

**Getting Connected**
If you are interested in trying out this new service or if you have any questions, talk with your VA mental health provider or ask your VA primary care provider to submit a consult.

**Frequently Asked Questions**
- Is the connection secure?  
  Yes, TeleHealth uses video encryption to ensure that only invited participants can join.
- What equipment do I need?  
  Any device with an internet connection; a webcam, microphone, and speakers (either internal or attached); and a web browser. High speed internet is not required.
- Can I receive high quality care through TeleHealth?  
  Yes, research on TeleHealth indicates that it is as effective as services delivered face-to-face.
- Can I return to my previous care if I do not like it?  
  Yes, if you decide TeleMental Health is not for you, you may resume your care at the VA Medical Center or other clinic.
