Question 3

Do you serve on a VA Institutional Animal Care and Use Committee (IACUC) or university IACUC that serves as the IACUC of record for a VA program?

This question is required. Choose one answer.

- Yes- Please go to the next question. (The "Essentials for IACUC Members" course has been added to your curriculum)
- No- Please go to the next question. (No additional coursework has been added to your curriculum)

Question 4

Do you utilize laboratory animals for research, testing, or teaching in any of the settings below?

- Conduct or supervise use of animals on VA property,
- Conduct or supervise use of animals purchased with VA funds; or
- Conduct or supervise use of animals while on a VA tour of duty but not on VA property.

This question is required. Choose one answer.

- Yes- Please go to the next question. (The "Working with the VA IACUC" course has been added to your curriculum)
- No- Please SKIP the next question. (No additional coursework has been added to your curriculum)

Question 5

Please place a check NEXT TO EACH species utilized in your animal research activities as described in the previous question.

- Mouse. (The "Working with Mice in Research Settings" course will be added to your curriculum)
- Rat. (The "Working with Rats in Research Settings" course will be added to your curriculum)
- Hamster. (The "Working with Hamsters in Research Settings" course will be added to your curriculum)
- Gerbil. (The "Working with Gerbils in Research Settings" course will be added to your curriculum)

BIOSECURITY NOT NEEDED

Question 6

Do you perform or supervise survival surgery on rodents?

- Yes. (The "Post-Procedural Care of Rodents" course will be added to your curriculum.)
- No.

Question 7

VA requires all new research laboratory staff to receive VA biosecurity training before beginning their laboratory duties ([click here to see the VA policy language](#)). You may need to check with your local research administrators or training coordinators to find out if you must meet this requirement using the CITI website. Please select one of the responses below.

This question is required. Choose one answer.

- I am a new VA or VA foundation employee and have NOT taken required VA training. (The "Introduction to VA Biosecurity Concepts" course will be added to your curriculum.)
- Although not a new employee, I am required by my VA medical center to take VA biosecurity training. (The "Introduction to VA Biosecurity Concepts" course will be added to your curriculum.)
- I took VA biosecurity training previously, or my VA medical center does not require me to take this training at CITI.

BIOSECURITY NEEDED

Question 6

Do you perform or supervise survival surgery on rodents?

- Yes. (The "Post-Procedural Care of Rodents" course will be added to your curriculum.)
- No.

Question 7

VA requires all new research laboratory staff to receive VA biosecurity training before beginning their laboratory duties ([click here to see the VA policy language](#)). You may need to check with your local research administrators or training coordinators to find out if you must meet this requirement using the CITI website. Please select one of the responses below.

This question is required. Choose one answer.

- I am a new VA or VA foundation employee and have NOT taken required VA training. (The "Introduction to VA Biosecurity Concepts" course will be added to your curriculum.)
- Although not a new employee, I am required by my VA medical center to take VA biosecurity training. (The "Introduction to VA Biosecurity Concepts" course will be added to your curriculum.)
- I took VA biosecurity training previously, or my VA medical center does not require me to take this training at CITI.
